

Tabelle 14: Übersicht der bis zum Jahr 2004 verfügbaren Bildgebungsstudien zum deduktiven Denken. (Erläuterungen im Text).

		Frontal														Cingulum				Parietal			Temporal						Okzipital			Subkortikal	
		10	9	46	11	47	45	44	6	8	4	32	24	23	30/ 31	7	40	39	38	Ins	41/ 42	22	21	20	MT	36/ 37	19	18	17	th	cb		
Konditionale Schlüsse																																	
Goel et al. (1997)	Konditional (u. Syllogismen) vs. Baseline	PET							●	●																				●			
Knauff et al. (2002)	Konditional vs. Baseline	fMRT		●							●		●				●	●					●	●					●				
Parsons & Dsherson (2001)	Deduktion vs. Wahrscheinlichkeit	PET	●	●					●			●				●			●				●				●	●	●	●			
Syllogistische Schlüsse																																	
Goel et al. (1998)	Syllogismen vs. Baseline	PET			●	●	●	●				●	●								●	●											
Goel et al. (2000)	Syllogismen vs. sinnlose Sätze	fMRT						●	●								●				●	●					●	●		●			
Goel & Dolan(2003)	Syllogismen vs. sinnlose Sätze	fMRT														Haupteffekt nicht berichtet (abstrakt –bilateral parietal / konkret – links temporal)																	
Goel & Dolan(2004)	Syllogismen vs. sinnlose Sätze	fMRT					●	●	●								●									●	●	●	●				
Dsherson et al. (1998)	Syllogismen vs. Bedeutung	PET								●																●		●	●				
Relationale Schlüsse / Transitive Inferenz																																	
Räumlich																																	
Goel & Dolan (2001)	räuml.-relational vs. sinnlose Sätze	fMRT															●	●									●	●	●	●			
Goel et al. (1998)	räuml.-relational vs. Baseline	PET		●			●				●	●									●			●		●							
Knauff et al. (2002)	räumlich-relational vs. Baseline	fMRT	●					●			●					●	●				●	●				●							
Knauff et al. (2003)	räumlich-relational vs. Baseline	fMRT			●											●					●			●									
Ruff, Knauff et al. (2003)	räumlich-relational vs. Aufrechterhalt.	fMRT	●	●					●		●					●	●		●	●						●		●	●				
nicht-räumlich																																	
Goel et al. (1998)	nicht-räumlich vs. Baseline	fMRT		●		●					●	●				●				●													
Goel & Dolan (2001)	nicht-räumlich vs. sinnlose Sätze	fMRT														●				●						●	●	●	●				
Knauff et. al. (2003)	Nicht-räumlich vs. Basline	fMRT		●	●	●		●							●					●			●										
visuell-räumlich																																	
Goel & Dolan(2001)	visuell-räumlich vs. sinnlose Sätze	fMRT															●	●									●	●	●	●			
Knauff et. al. (2003)	Visuell-räumlich vs. Baseline	fMRT		●	●	●			●							●					●			●									
Fangmeier, Knauff et. al. (2004)	Visuell-räumlich vs. Aufrechterhaltung	fMRT	●								●	●				●	●	●						●		●	●	●	●	●			
visuell-nicht-räumlich																																	
Knauff et. al. (2003)	Visuell vs. Baseli- ne	fMRT		●		●			●							●			●			●			●		●	●					

● linkslateral

► rechtslateral

● bilateral
